Naturatex Naturaseal	8.5	125M <sup>2</sup>	15Lt
Naturatex Naturafill	3.5	55M <sup>2</sup>	15Lt

**Note:** The coverage rates quoted above are approximate values only, they are deemed as the maximum coverage possible for a product and therefore should be used as a guide only.

**Disclaimer:**

All effort has been made to make these coverage rates as accurate as possible. However, more or less product may be used due to the substrate porosity, thickness the coating is applied, the amount of coats applied, the method of application (i.e. sprayed or rolled), amount of product wastage, and the applicator skill. Therefore, good judgement is recommended when ordering correct product amounts as this responsibility rests with the purchaser of products.
